AI/ML research, evaluation, and responsible technology

EXPERIENCE & RESEARCH

JazzML — Student-Directed, AI-Agent-Assisted ML/Music Research

May 2026–Present

- Directed an AI-agent-assisted ML research workflow on jazz rhythm modeling; specified and evaluated multiple PyTorch architectures on the Weimar Jazz Database.
- Used multi-seed metrics, protected evaluation panels, reproducibility/provenance checks, and explicit promotion gates; documented and rejected neural runs that failed density or rhythm-distribution criteria.
- Maintains a train-only retrieval/template rhythm MVP with a deterministic melodic carrier as an unpromotable runnable baseline.

Volunteer AI Literacy Instructor & Curriculum Developer

Jul.–Aug. 2026

- Designed a four-week, eight-session responsible-AI curriculum for incoming ninth graders and taught pro sessions on AI/ML fundamentals, bias, evaluation, privacy, and responsible use.
- Created source-grounded slides, activities, speaker notes, and no-login fallbacks for clear, age-appropriate instruction.

Breakthrough New York

CloudExtel internship — Partner Performance Evaluation Project

Summer 2026

- Developed a draft partner-performance evaluation workbook for sponsor discussion, covering scope, KPI evidence, scoring, missing data, corrective actions, and project tracking.
- Draft/pilot only; not approved, deployed, or used to publish ratings.

Audemy contribution — Accessible Audio-Gaming Work

2026 contribution

- Contribute to Audemy's accessible audio-game work for blind and low-vision players; an ElevenLabs Imp Program website contribution was approved and merged into preproduction, with the live release pending

LEADERSHIP & SERVICE

Honor Council Board — Member

Jan. 2025–Present

- Serve on a student-faculty council, applying discretion, ethical judgment, careful listening, and precise reasoning.

Trinity School

Sol Tutors — Trinity Chapter Co-Founder / Co-Lead

- Co-launched and co-lead a peer-tutoring chapter pairing Trinity Spanish students with public-school stud

Trinity School

TECHNICAL SKILLS

Programming / ML: Python, Java, HTML/CSS, PyTorch, Weights & Biases, API integration, AI agent workflow

Research workflow: evaluation design, error analysis, structured testing, data validation, documentation

Tools & languages: Excel, Google Sheets, Google Workspace; English and Hindi fluent, Spanish proficient

Course certificate: Supervised Machine Learning: Regression and Classification — DeepLearning.AI / Stanford C via Coursera, Jul. 2025

MUSIC & AWARDS

Lead Alto Saxophonist, Trinity Jazz Ensemble / Jazz Messengers

WorldStrides Music Competition — Gold Medal; Regional Scholastic Art & Writing Awards — Gold Key

EDUCATION

Trinity School, New York, NY — High School Student, Class of 2028
